

# 2018 Voter Guide

This year's ballot presents several measures and propositions that could affect business in the San Luis Obispo region. Each year, we hear that you value the Chamber's advocacy and education so our committees and Board of Directors studied the initiatives below to develop the Chamber position.

## City of San Luis Obispo

**YES** on **F**

The **Cannabis Business Tax** would set up reasonable taxation for this emerging industry.

## California

**YES** on **3**

The **Water Bond** would support steady water supply for our community and aligns with the Chamber's conservation values.

**NO** on **5**

The **Property Tax Transfer Initiative** could make homes in SLO less affordable for locals, hurt schools, and hurt our economy.

**NO** on **6**

The **Gas Tax Repeal** would worsen traffic, make roads more dangerous and take away approx. \$1B for local improvements.

## Vote November 6!
